

Sirius is Broadstone's innovative solution for the provision of integrated actuarial and investment advice to trustees and sponsors of defined benefit schemes.

**The platform is:**

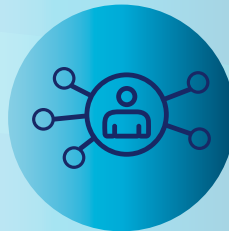

**User friendly**

Sirius has been designed to help you understand the financing of your scheme, enabling you to focus on the important decisions without cutting out important detail.

**Continuously updated**

Sirius is automatically updated with the latest financial conditions allowing up to the minute scheme financing to be tracked.

**Fully integrated**

We will use Sirius to provide all of our actuarial and investment advice so that funding and investment decisions can be made easily with all of the necessary information readily available.

**Accessible at any time**

You will be able to log into Sirius to obtain an updated funding level and track how the scheme is performing against the agreed plan.

**Future proof**

We have designed Sirius to incorporate the requirements of the forthcoming Pension Regulator Code of Practice on funding and can customise it for any further changes.

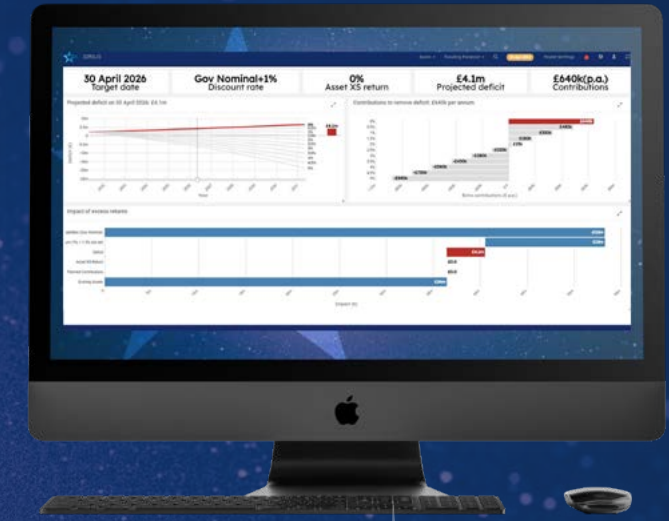

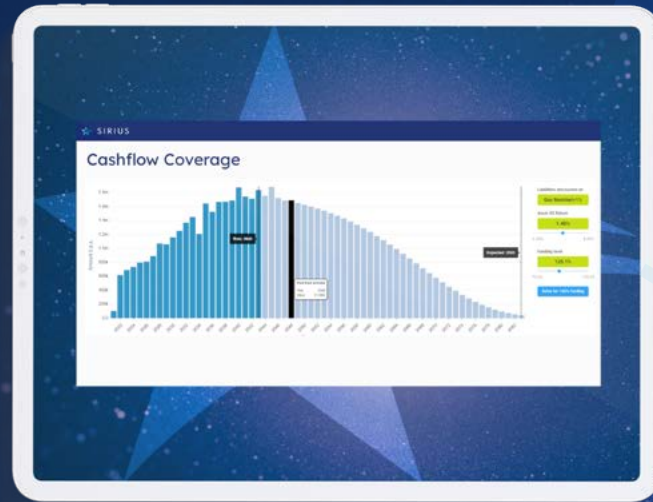

Visit our website for more information about Sirius [www.broadstone.co.uk](http://www.broadstone.co.uk)

# SIRIUS

POWERED BY BROADSTONE

Explore and set strategic objectives, measure risk and return and determine the right asset allocation.

## Strategic objectives

Visualise and compare asset and liability cashflows to design an investment strategy that provides sufficient liquidity.

## Cashflow

Design trigger framework and track funding against triggers.

## Trigger monitoring

Monitor insurance company pricing and understand the impact of liability management exercises.

## Derisking

## Journey Plan

Integrated dashboard to monitor and consider investment, contribution and funding strategy to achieve long term objective.

## Actuarial valuation

Explore what-if scenarios for liability assumptions and recovery plan contribution options.

## Liability hedging

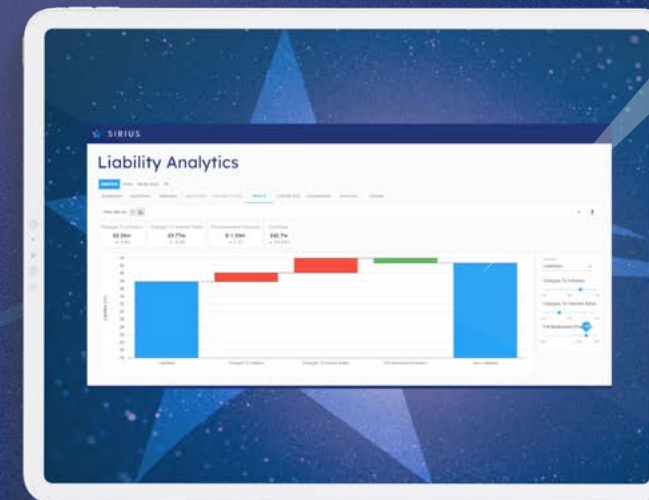

Design an investment strategy that provides the right match for the liabilities.

## Funding update

Track scheme funding level on a variety of bases, updated daily.

## Investment performance

Monitor performance against liabilities and performance of managers.
