Steps to connection

How to Connect

Influences

Find Data

- Provide a view on data completeness
- What further action to take?

View Data

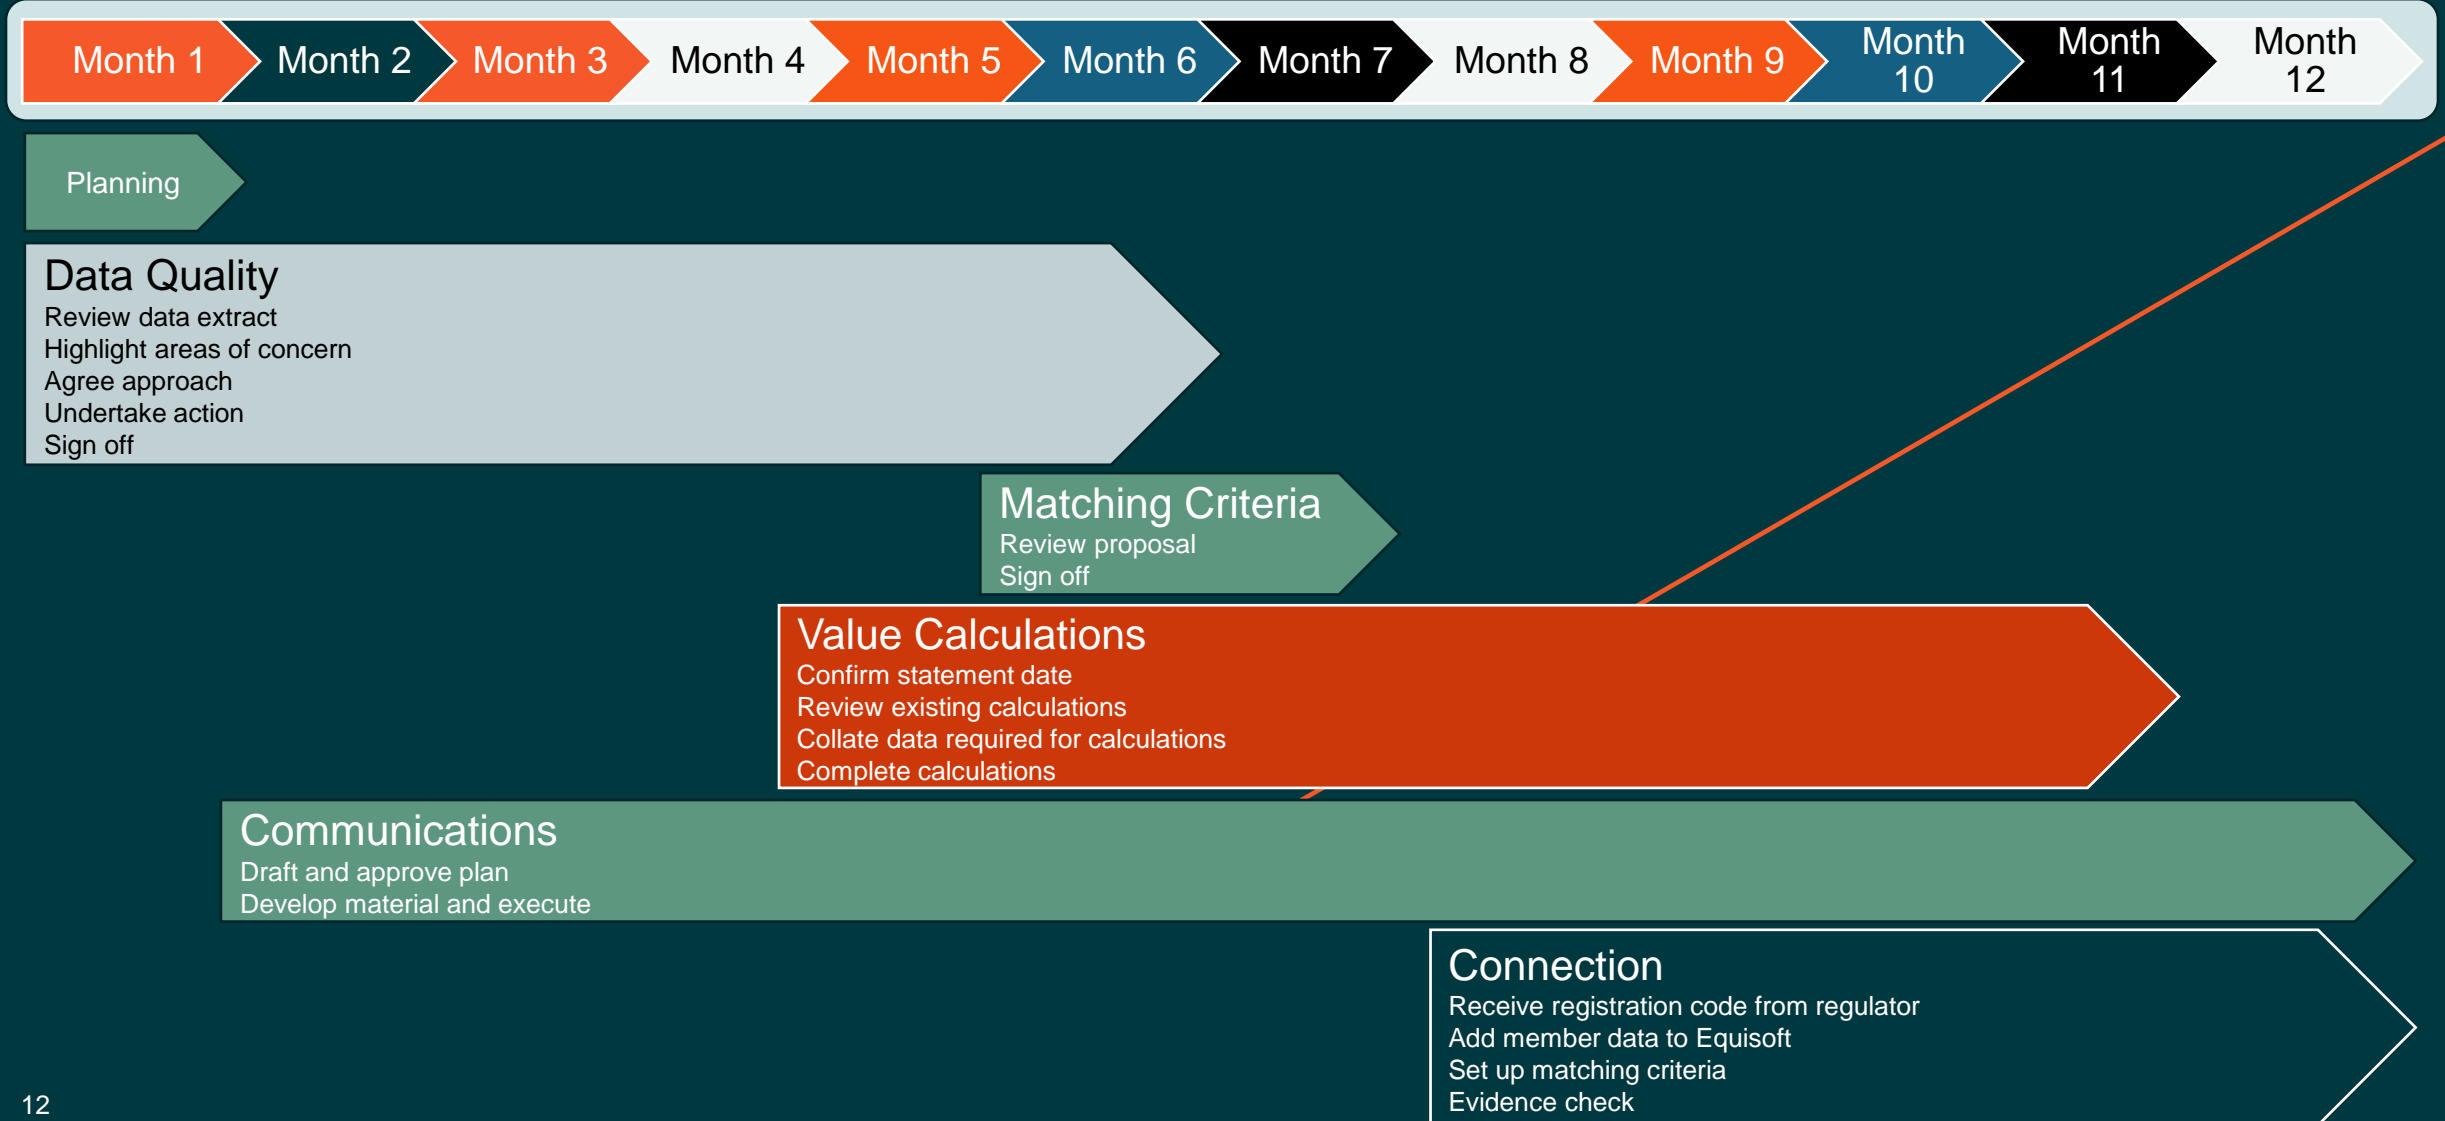

- What view data is currently available?
- How do we close the gaps?

AVC / 3rd Parties

- How are AVC providers connecting?
- Are there data activities that need to be undertaken on AVC data

Planning

12 Month Action Plan

Data Quality

Names

- Surname present and in suitable format.
- First names present and in suitable format
- If the first name is not present, whether there is an initial

Address

- Address and Postcode present (or if overseas).
- Address flagged as unknown, gone away or care of

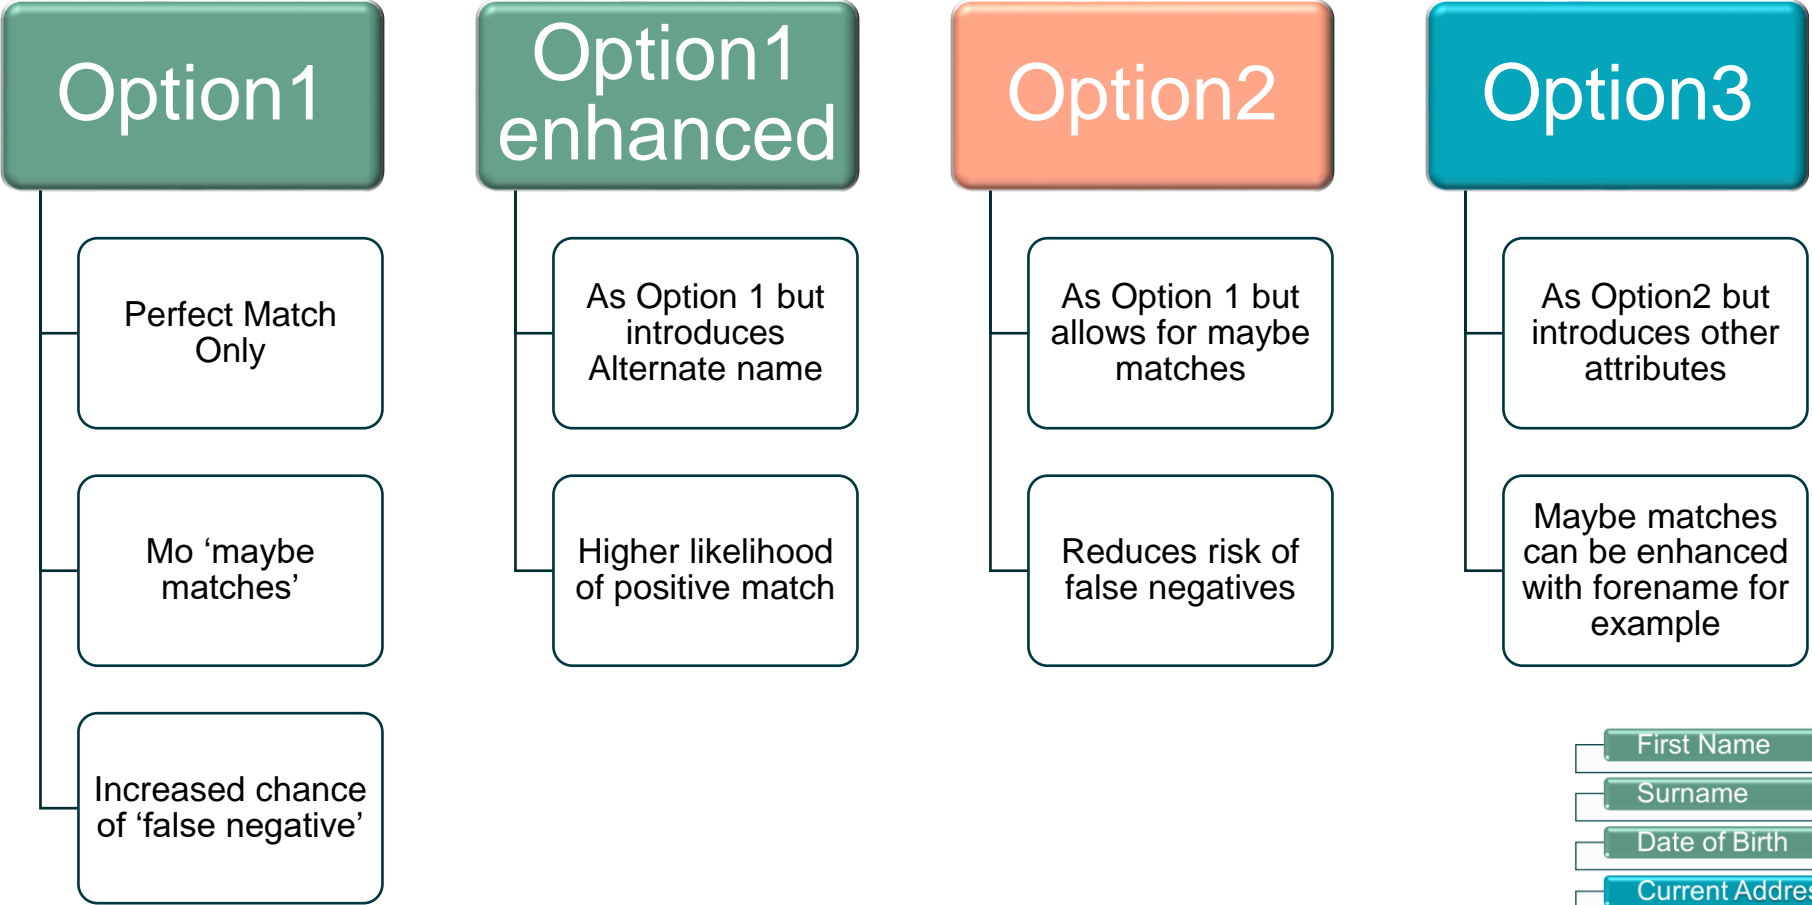

Personal Information

- National Insurance No present and acceptable
- Date of birth present and appropriate
- Deferred member beyond NRA

Enhanced data cleansing:

- Use an agency
- Member write out
- On-line services

MoneyHelper Dashboard testing phase 1

- Summer 2025

MoneyHelper Dashboard

Two phases of testing

Phase 1 - Moderated

Period	Approx. 2-3 months
Volumes	Low (50-60 pm)
Service	End-to-end with limited support
Purpose	Prove find pensions and service working as expected
Recruitment	Pension schemes
Participants	Employees / panel members

Phase 2 – Unmoderated

Period	Approx. 8-9 months
Volumes	High (200 to 11,000 pm)
Service	End-to-end incl. full support model
Purpose	Improve and iterate the service
Recruitment	Schemes, charities, agencies
Participants	Pension members / specific groups

MoneyHelper Dashboard

Phase 1 – Moderated Testing Overview

Expected duration = 2-3 months

Pension holdings status & focus	circa 400 schemes connecting over that period with around 55m pensions findable Aiming to test with: State Pension, Workplace DC pensions, Private Sector DB & AVC			
Volumes	60 participants p/m (10-15 p/w)			
Participant details, recruitment and testing methods		Mix of demographics including those with access needs.		Registered and Unregistered for OneLogin.
		Recruited from workplace pension staff schemes / research panels. Ideally in person in a lab near the location of employer. Employer's office or remote also possible.		Follow ups to understand testers interactions and experiences post their moderated session.

MoneyHelper Dashboard testing phase 1

MoneyHelper Dashboard testing phase 2

- Autumn 2025

MoneyHelper Dashboard

Phase 2 – Unmoderated Testing Overview

Expected duration = 6-10 months

Pension holdings status & focus	circa 3000 schemes connecting over the testing period enabling around 70m pensions to be found	
	Aiming to test with: All pension types	
Volumes	200 p/m  11,000 p/m	
Participant details, recruitment and testing methods		Mix of demographics including those with access needs.
		Alternative recruitment methods to be used if not meeting quotas incl. charities, specialist recruiters & MoneyHelper website.
		Aiming to recruit participants to a panel from providers and schemes.
		Registered & Unregistered for OneLogin.
		Two-pronged approach with structured and unstructured unmoderated testing.
		Link to remain open with follow ups to understand testers overall interactions and experiences

Announcement of Dashboard Available Point

- at least 6 months' notice of the dashboards available point

Dashboard Available point (DAP)

The dashboards available point (DAP) is the date at which pensions dashboards will be made available to the public.

The DAP is decided by the Government (Secretary of State for Work and Pensions). This will be in consultation with the Money and Pensions Service, the Pensions Regulator and the Financial Conduct Authority. Government will provide at least 6 months' notice of the dashboards available point.

The connection deadline for pension providers and schemes to connect to the central digital architecture is not the same as the dashboards available point. If pension providers and schemes connect in line with the staging profile to be set out in guidance then DAP could come before the connection deadline.
